USED-RV BUYER INSPECTION KIT

Nine zones in walking order. A score for every row. One summary page, one page to compare units, and the questions to ask before you sign.

WHAT IS INSIDE

1	Paperwork	p. 4
2	Outside walk-around	p. 5–6
3	Roof and seams	p. 7–8
4	Tires and axles	p. 9–10
5	Structure, floors and slide-outs	p. 11–12
6	Water and leaks	p. 13–14
7	Systems	p. 15–17
8	Inside	p. 18–19
9	Test drive or tow	p. 20
	Summary page	p. 21
	Ask the seller	p. 22
	Compare units	p. 23
	Quick facts, notes, sources	p. 24–26

HOW TO USE IT

1. **Print it,** or fill it in on screen. Black and white is fine. US Letter paper, any printer.
2. **Fill in page 3** at the seller's yard, then walk the zones in order.
3. **Score every row** 0 to 3. Circle a number on paper, or click one on screen. Add a note and tick Photo when you took one.
4. **Count your marks** at the end of each zone, then copy them to the summary page.
5. **Ask the seller** the questions on page 22. Write down what you hear.

On screen: open the PDF in Adobe Reader, Preview, Chrome or Edge. Type in the lines, click the circles and boxes, then save. Some phone viewers will not show the fields. Print it if yours does not.

SAMPLE

PLEASE READ THIS

This kit is a score sheet for you to fill in. It is **not a professional RV inspection**, and it does not replace a certified RV inspector or a mechanic. It gives no safety guarantee. It does not estimate repair costs, and it is not legal advice: for titles, liens and your rights, check your state agency. You decide whether to buy. Never climb on a roof, get under a unit, or run equipment unless it is safe for you. If you smell gas, leave and call a propane shop.

Refunds. All sales are final, because you keep this file. We refund or fix it only for a duplicate charge, a file we cannot deliver or a broken file we cannot replace. Write to us with your order email.

Questions. Write to ops@quietlathe.com. Made by Quietlathe LLC, 2800 E. Enterprise Ave Ste 333, Appleton, WI 54913.

Your licence. For you and your household. Print as many copies as you need. Share filled-in pages with a seller, dealer, inspector or mechanic. Please do not resell or post the blank files.

3 ROOF AND SEAMS

0 Fine · 1 Ask · 2 Fix first · 3 Walk away

Circle one per row

3.7 Slide-out roof seal and wiper

Look at the seal and wiper along the top of each slide-out. A dry, flat or torn wiper gets a mark.

0 1 2 3

NOTE _____ ☐ PHOTO

3.8 Ceiling inside

Look for stains, rings, bubbles, sagging and color changes across the whole ceiling.

0 1 2 3

NOTE _____ ☐ PHOTO

3.9 All four ceiling corners

Water often shows in the corners. Look in all four, and where wall panels meet.

0 1 2 3

NOTE _____ ☐ PHOTO

3.10 Smell test

Close the unit up for five minutes with the doors shut, then breathe in. Damp or musty means ask more questions.

0 1 2 3

NOTE _____ ☐ PHOTO

3.11 Moisture meter (optional)

A small moisture meter reads damp in walls and floors. Read near windows, vents, corners and slide-outs, and one dry spot to compare. A high reading is a reason to ask, not a verdict.

0 1 2 3

ZONE 3 COUNT ASK _____ FIX FIRST _____ WALK AWAY _____

SAMPLE

Not a professional RV inspection. No repair cost estimates, no legal advice, no safety guarantee.

SUMMARY: WHERE THE MARKS LANDED

Copy the three counts from the end of each zone. Add up the columns. Scores only: there are no repair costs on this page.

ZONE	ASK (1)	FIX FIRST (2)	WALK AWAY (3)
1 Paperwork			
2 Outside walk-around			
3 Roof and seams			
4 Tires and axles			
5 Structure, floors and slide-outs			
6 Water and leaks			
7 Systems			
8 Inside			
9 Test drive or tow			
Total rows marked			

HIGHEST SCORE ON THIS UNIT

0 Fine · 1 Ask · 2 Fix first · 3 Walk away

The highest score decides the verdict. One 3 is a Walk away until you decide otherwise.

MY NEXT STEP

- [ ] Walk away
- [ ] Ask again after the answers
- [ ] Make an offer
- [ ] Get a certified RV inspector to look
- [ ] Look at another unit

IN MY OWN WORDS

Unit: _____ Date: _____
